THE CITY OF NEW YORK
OFFICE OF THE MAYOR
NEW YORK, N.Y. 10007

EMERGENCY EXECUTIVE ORDER NO. 228

WHEREAS, the COVID-19 pandemic has severely impacted New York City and its economy, and is addressed effectively only by joint action of the City, State, and Federal governments; and

WHEREAS, the state of emergency to address the threat and impacts of COVID-19 in the City of New York first declared in Emergency Executive Order No. 98, and extended most recently by Emergency Executive Order No. 220, remains in effect; and

WHEREAS, this Order is given because of the propensity of the virus to spread person-to-person, and also because the actions taken to prevent such spread have led to property loss and damage;

WHEREAS, the U.S. Centers for Disease Control (“CDC”) reports that new variants of COVID-19, classified as “variants of concern,” are present in the United States;

WHEREAS, some of these new variants currently account for the majority of COVID-19 cases sequenced in New York City and are much more transmissible than earlier variants;

WHEREAS, the CDC has stated that vaccination is the most effective tool to mitigate the spread of COVID-19 and protect against severe illness;

WHEREAS, the CDC has also stated that vaccination benefits both vaccine recipients and those with whom they come into contact, including individuals who are ineligible for the vaccine due to age, health or other conditions;

WHEREAS, the recent appearance in the City of the highly transmissible Delta variant of COVID-19 has substantially increased the risk of infection;

WHEREAS, indoor entertainment, recreation, dining and fitness settings generally involve groups of unassociated people interacting for a substantial period of time and requiring vaccination for all individuals in these areas, including workers, will protect the public health, promote public safety, and save the lives of not just those vaccinated individuals but the public at large;

WHEREAS, 57% of City residents are fully vaccinated and 64% of residents have received at least one dose, and mandating vaccinations at the types of establishments that residents frequent will incentivize vaccinations, increasing the City's vaccination rates and saving lives; and

TO REQUIRE COVID-19 VACCINATION FOR
CITY EMPLOYEES AND CERTAIN CITY CONTRACTORS**

WHEREAS, on March 12, 2020, Mayor Bill de Blasio issued Emergency Executive Order No. 98 declaring a state of emergency in the City to address the threat posed by COVID-19 to the health and welfare of City residents, and such order remains in effect; and

WHEREAS, on March 25, 2020, the New York City Commissioner of Health and Mental Hygiene declared the existence of a public health emergency within the City to address the continuing threat posed by COVID-19 to the health and welfare of City residents, and such declaration and public health emergency continue to be in effect; and

WHEREAS, pursuant to Section 558 of the New York City Charter (the “Charter”), the Board of Health may embrace in the Health Code all matters and subjects to which the power and authority of the Department of Health and Mental Hygiene (the “Department”) extends; and

WHEREAS, pursuant to Section 556 of the Charter and Section 3.01(c) of the Health Code, the Department is authorized to supervise the control of communicable diseases and conditions hazardous to life and health and take such actions as may be necessary to assure the maintenance of the protection of public health; and

WHEREAS, the U.S. Centers for Disease Control and Prevention (“CDC”) reports that new variants of COVID-19, identified as “variants of concern” have emerged in the United States, and some of these new variants which currently account for the majority of COVID-19 cases sequenced in New York City, are more transmissible than earlier variants; and

WHEREAS, the CDC has stated that vaccination is an effective tool to prevent the spread of COVID-19 and the development of new variants, and benefits both vaccine recipients and those they come into contact with, including persons who for reasons of age, health, or other conditions cannot themselves be vaccinated; and

WHEREAS, the Department reports that between January 17 and August 7, 2021, people who were unvaccinated or not fully vaccinated accounted for 96.1% of COVID-19 cases, 96.9% of COVID-19 hospitalizations, and 97.3% of COVID-19 deaths in New York City; and

WHEREAS, a study by Yale University demonstrated that the Department’s vaccination campaign was estimated to have prevented about 250,000 COVID-19 cases, 44,000 hospitalizations, and 8,300 deaths from COVID-19 infection since the start of vaccination through July 1, 2021, and by information and belief, the number of prevented cases, hospitalizations, and death has risen since then; and

WHEREAS, on August 16, 2021, Mayor de Blasio issued Emergency Executive Order No. 225, the “Key to NYC,” requiring that patrons and employees of establishments providing indoor entertainment, dining, and gyms and fitness centers must show proof that they have received at least one dose of an approved COVID-19 vaccine, and such Order, as amended, is still in effect; and

WHEREAS, on August 24, 2021, I issued an Order requiring that Department of Education employees, contractors, and visitors provide proof of COVID-19 vaccination before entering a DOE building or school setting, and such Order was re-issued on September 12 and

15, 2021, and subsequently amended on September 28, 2021, and such Orders and amendment were ratified by the New York City Board of Health on September 17, 2021 and October 18, 2021; and

WHEREAS, on August 26, 2021, the New York State Department of Health adopted emergency regulations requiring staff of inpatient hospitals and nursing homes to receive the first dose of a COVID-19 vaccine by September 27, 2021, and staff of diagnostic and treatment centers, hospices, home care and adult care facilities to receive the first dose of a COVID-19 vaccine by October 7, 2021; and

WHEREAS, on August 31, 2021, Mayor de Blasio issued Executive Order No. 78, requiring that, beginning September 13, 2021, City employees and covered employees of City contractors be vaccinated against COVID-19 or submit on a weekly basis proof of a negative COVID-19 PCR diagnostic test; and

WHEREAS, on September 9, 2021 President Biden issued an Executive Order stating that “It is essential that Federal employees take all available steps to protect themselves and avoid spreading COVID-19 to their co-workers and members of the public,” and ordering each federal agency to “implement, to the extent consistent with applicable law, a program to require COVID-19 vaccination for all of its Federal employees, with exceptions only as required by law”; and

WHEREAS, on September 12, 2021, I issued an Order requiring that staff of early childhood programs or services provided under contract with the Department of Education or the Department of Youth and Community Development provide proof of COVID-19 vaccination; and

WHEREAS, Section 17-104 of the Administrative Code of the City of New York directs the Department to adopt prompt and effective measures to prevent the communication of infectious diseases such as COVID-19, and in accordance with Section 17-109(b), the Department may adopt vaccination measures to effectively prevent the spread of communicable diseases; and

WHEREAS, City employees and City contractors provide services to all New Yorkers that are critical to the health, safety, and well-being of City residents, and the City should take reasonable measures to reduce the transmission of COVID-19 when providing such services; and

WHEREAS, a system of vaccination for individuals providing City services and working in City offices will potentially save lives, protect public health, and promote public safety; and

WHEREAS, there is a staff shortage at Department of Corrections (“DOC”) facilities, and in consideration of potential effects on the health and safety of inmates in such facilities, and of the benefit to public health and employee health of a fully vaccinated correctional staff, it is necessary that the requirements of this Order for DOC uniformed personnel not assigned to posts in healthcare settings be delayed; and

WHEREAS, pursuant to Section 3.01(d) of the Health Code, I am authorized to issue orders and take actions that I deem necessary for the health and safety of the City and its residents when urgent public health action is necessary to protect the public health against an existing threat and a public health emergency has been declared pursuant to such Section;

NOW THEREFORE I, Dave A. Chokshi, MD, MSc, Commissioner of Health and Mental Hygiene, finding that a public health emergency within New York City continues, and that it is

All such contractors shall submit a certification to their contracting agency confirming that they are requiring their covered employees to provide such proof. If contractors are non-compliant, the contracting City agencies may exercise any rights they may have under their contract.

5. Notwithstanding Paragraphs 3 and 4 of this Order, until November 30, 2021, the provisions of this Order shall not apply to uniformed Department of Corrections (“DOC”) employees, including staff serving in Warden and Chief titles, unless such uniformed employee is assigned for any time to any of the following locations: Bellevue Hospital; Elmhurst Hospital; the DOC

**ORDER OF THE COMMISSIONER
OF HEALTH AND MENTAL HYGIENE
REQUIRING COVID-19 VACCINATION AND FACE COVERINGS
IN CHILD CARE AND EARLY INTERVENTION PROGRAMS**

WHEREAS, on March 12, 2020, Mayor Bill de Blasio issued Emergency Executive Order No. 98 declaring a state of emergency in New York City to address the threat posed by COVID-19 to the health and welfare of City residents, and such order remains in effect; and

WHEREAS, on March 25, 2020, the Commissioner of Health and Mental Hygiene declared the existence of a public health emergency within the City to address the continuing threat posed by COVID-19 to the health and welfare of City residents, and such declaration and public health emergency continue to be in effect; and

WHEREAS, pursuant to Section 556 of the Charter, and Section 3.01(c) of the Health Code (“Health Code”), the Department of Health and Mental Hygiene (“Department”) is authorized to supervise the control of communicable diseases and conditions hazardous to life and health and take such actions as may be necessary to assure the maintenance of and the protection of public health; and

WHEREAS, the US Centers for Disease Control and Prevention (“CDC”) reports that variants of COVID-19, identified as “variants of concern,” have emerged in the United States, and such variants currently account for the majority of COVID-19 cases sequenced in New York City and are more transmissible than earlier variants; and

WHEREAS, the CDC has stated that vaccination is an effective tool to prevent the spread of COVID-19 and benefits both vaccine recipients and those they come into contact with, including persons who for reasons of age, health, or other conditions cannot themselves be vaccinated; and

WHEREAS, child care programs are essential services needed and utilized by hundreds of thousands of children and families across the City, including those in communities that have been disproportionately affected by the COVID-19 pandemic; and

WHEREAS, pursuant to Article 25 of the State Public Health Law, the New York City Early Intervention Program (“Early Intervention”) annually provides essential services to over 30,000 eligible infants and toddlers under the age of 3 with, or at risk of experiencing, developmental delays or disabilities; said services being provided in the family home or at other locations; and

WHEREAS, on September 16, 2021, emergency regulations of the State Office of Children and Family Services requiring all persons age 2 and older who are able to medically tolerate a face covering to wear a face covering indoors at State-licensed child care programs went into effect (N.Y.S. Reg. Oct. 6, 2021, at 4-6); and

WHEREAS, emergency regulations of the State Department of Health require that, by September 27, 2021, staff at hospitals and nursing homes, and by October 7, 2021, staff at other facilities, such as adult care facilities, must be vaccinated against COVID-19 (10 N.Y.C.R.R §2.61); and

WHEREAS, requiring vaccination of staff in child care and Early Intervention programs, and use of face coverings by both staff and children in such programs, are among the most effective COVID-19 mitigation responses and will potentially save lives, protect public health, and promote public safety; and

WHEREAS, on August 24, 2021, I issued an Order requiring that Department of Education employees, contractors, and visitors provide proof of COVID-19 vaccination before entering a DOE building or school setting, and such Order was re-issued on September 12 and 15, 2021, and subsequently amended on September 28, 2021, and such Orders and amendment were ratified by the New York City Board of Health on September 17, 2021 and October 18, 2021; and

WHEREAS, on September 12, 2021, I issued an Order requiring that staff of early childhood programs or services provided under contract with the Department of Education or the Department of Youth and Community Development provide proof of COVID-19 vaccination; and

WHEREAS, pursuant to Section 17-109(b) of the Administrative Code, the Department may adopt vaccination measures to effectively prevent the spread of communicable diseases; and

WHEREAS, pursuant to Section 3.01(d) of the Health Code, I am authorized to issue orders and take actions that I deem necessary for the health and safety of the City and its residents when urgent action is needed to protect the public health against an existing threat and a public health emergency has been declared pursuant to such section; and

NOW THEREFORE, I, Dave A. Chokshi, MD, MSc, Commissioner of Health and Mental Hygiene, finding that a public health emergency within New York City continues, and that it is necessary for the health and safety of the City and its residents, do hereby exercise the power of the Board of Health to prevent, mitigate, control and abate the current emergency, and hereby order that:

1. No later than December 20, 2021, every child care program and Early Intervention provider agency must exclude from the premises any staff member who has not provided proof of vaccination against COVID-19, except as provided in paragraph 6 of this Order.
2. All staff members hired on or after the effective date of this Order at any child care program or Early Intervention provider agency must provide proof of vaccination against COVID-19 to their employer on or before their start date, except as provided in paragraph 6 of this Order.
3. All staff members and individuals 2 years of age and older who can medically tolerate a face covering must wear a face covering while at a child care program, during provision of Early Intervention services, and during off-site trips and excursions, provided that a child care program or Early Intervention provider may modify this requirement where it determines it appropriate based on the developmental needs of the child. This face covering requirement applies to family members who participate in the provision of services or who are present with the child and the staff member while services are being provided. A face covering is not required when an individual is sleeping, or actively eating or drinking. A face covering is also not required for an individual who is not participating in Early Intervention services, such as a household member, when such services are provided in a private home.
4. Each child care program and Early Intervention provider must securely maintain staff member records of proof of vaccination against COVID-19. These records may be kept electronically or on paper. These records must include the following:
 - a) each staff member's name and start date.
 - b) the type of proof of vaccination submitted; the date such proof was collected; and whether the person is fully vaccinated, as defined in this Order.
 - c) for any staff member who submits proof of the first dose of a two-dose vaccine, the date by which proof of the second dose must be provided, which must be no later than 45 days after the first dose.

d) for any staff member who did not submit proof of COVID-19 vaccination because of a reasonable accommodation, the record must indicate that such accommodation was provided, and the child care program or Early Intervention provider agency must separately maintain records stating the basis for such accommodation and the supporting documentation provided by such staff in accordance with applicable laws, including the Americans with Disabilities Act.

5. For the purposes of this Order:

“Child care” or “Child care program” means any person or entity that is regulated under Article 43 or 47 of the Health Code, is required to be licensed or registered by the State Office of Children and Family Services, or is an enrolled legally exempt group child care program pursuant to the Social Services Law.

“Early Intervention provider” or “Early Intervention provider agency” means any person or entity holding a provider agreement for the provision of Early Intervention services in New York City, including service coordination, evaluation, therapeutic and educational services, pursuant to Article 25 of the Public Health Law.

“Fully vaccinated” means at least two weeks have passed after an individual has received either: (a) the second dose in a two-dose series of a COVID-19 vaccine, or (b) a single-dose of a COVID-19 vaccine that requires only one dose of a COVID-19 vaccine approved or authorized for use by the Food and Drug Administration or World Health Organization.

“Premises” means locations where children are regularly present at child care programs, or any setting or location where Early Intervention services are provided as authorized by the New York City Early Intervention Official or such official’s designee.

“Proof of vaccination” against COVID-19 means one of the following demonstrating that an individual has either: (a) been fully vaccinated against COVID-19, or (b) received the first dose of a two-dose COVID-19 vaccine, provided that staff providing proof of only a first dose must also provide proof of receiving the second dose of that vaccine within 45 days after receiving the first dose. Such proof of vaccination includes, but may not be limited to, the following:

- 1) CDC Vaccination Card. A digital photo or photocopy of this card is also acceptable.
- 2) NYC Vaccination Record or other official immunization record, including from a health care provider. A digital photo or photocopy of this is also acceptable.
- 3) NYC COVID Safe App showing a vaccination record.
- 4) CLEAR Health Pass.
- 5) NYS Excelsior Pass/Excelsior Pass Plus.

“Staff member” means an employee, contractor, volunteer or intern of a child care program or Early Intervention provider, who works in-person on the premises or provides Early Intervention in-person therapeutic, developmental or education services, or conducts assessments for the purpose of determining children’s eligibility for such services; a graduate, undergraduate or high school student placed by their educational institution at a child care program or with an Early Intervention provider as part of an academic program and who works in-person on the premises; a specialist providing support services, therapy, special education or other services at a child care program or with an Early Intervention provider to an individual child and who works in-person on the premises; or a person employed by a contractor of a child care program or an Early Intervention provider, including an independent contractor, who works in-person on the premises. “Staff member” does not include a person who is onsite briefly for a limited purpose, such as for a delivery or pick-up or to perform a repair.

6. Nothing in this Order shall be construed to prohibit any reasonable accommodations otherwise required by law, however a reasonable accommodation may not allow an unvaccinated staff member to work with children in person.
7. This Order shall be effective immediately and remain in effect until rescinded, subject to the authority of the Board of Health to continue, rescind, alter, or modify this Order pursuant to Section 3.01(d) of the Health Code.

Commissioner

Vaccination and Mask Requirements for Child Care Programs

The Commissioner of the New York City Department of Health and Mental Hygiene (NYC Health Department) has ordered staff working in child care programs to be vaccinated against COVID-19, and for staff and children age 2 and older to wear a face mask. Review this document to learn about these new requirements and how to comply.

As of Monday, December 20, 2021, all staff working in a child care program must have submitted proof that they have received at least one dose of a COVID-19 vaccine. This means that on December 20, 2021, staff who have not received their first vaccine dose cannot deliver in-person child care program services.

Programs operating under a contract with the NYC Department of Education (DOE) or Department of Youth and Community Development (DYCD), and those located in DOE or charter schools are already complying with these requirements. Expanding these requirements to all child care programs is a critical next step to protect the safety of children, families and staff.

What child care programs are covered by the mandate?

- Child care programs regulated under the NYC Health Code
 - Group child care centers (Article 47)
 - School-based programs (Article 43)
- Child care programs authorized by the New York State (NYS) Office of Children and Family Services (OCFS)
 - Family day care
 - Group family day care
 - School age child care
 - Enrolled legally exempt group child care programs

Who is required to be vaccinated?

All staff, contractors, volunteers or interns who **work in-person** at a child care program (collectively, “staff”). This includes:

- All employees of the child care program
- Graduate, undergraduate or high school students placed by their educational institution at a child care program as part of an academic program
- Specialists providing support services, therapy, special education or other services at a child care program
- People employed by a contractor of a child care program, including independent contractors, who work in-person at a location providing child care services

Staff hired on or after November 17, 2021, must provide proof that they have received at least one dose of an approved COVID-19 vaccine before their start date and must receive their second dose no later than 45 days later. The Order does **not** include household members or people who are on-site briefly for a limited purpose, such as for a delivery or pickup, or to perform a repair.

Which vaccines are approved?

Acceptable vaccines are those authorized or approved by the Food and Drug Administration (FDA) or authorized for emergency use by the World Health Organization (WHO), and those part of a U.S.-based clinical trial. Acceptable vaccines:

- Pfizer-BioNTech (also known as COMIRNATY, Tozinameran) (two-dose series)
- Moderna (also known as Takeda, Spikevax) (two-dose series)
- Johnson & Johnson/Janssen (single-dose)
- AstraZeneca (also known as Covishield, Vaxzevria) (two-dose series)
- COVAXIN (Bharat Biotech International) (two-dose series)
- Sinopharm-BIBP (Beijing Institute of Biological Products) (two-dose series)
- Sinovac (CoronaVac) (two-dose series)
- Novavax, for people participating in the clinical trial only (must confirm receipt of active vaccine (not placebo)

What documentation does my child care program need to maintain?

Each child care program must securely maintain electronic or paper records of staff members' proof of vaccination. These records must be kept current and made available to the NYC Health Department upon request. The program must maintain a report that tracks the following information:

- 1. Name of staff member and start date at the program**
- 2. Type of proof of vaccination** submitted, which may include:
 - CDC Vaccination Card. A digital photo or photocopy of this card is also acceptable.
 - NYC Vaccination Record or other official immunization record, including from a health care provider. A digital photo or photocopy of this is also acceptable.
 - NYC COVID Safe App (iOS) printout or screenshots
 - CLEAR Health Pass printout or screenshots
 - NYS Excelsior Pass/Excelsior Pass Plus
- 3. Date that proof of vaccination was received**
- 4. Whether the staff member is currently fully vaccinated**
 - To be fully vaccinated, at least two weeks must have passed since the person received the second dose in a two-dose vaccine, or a single dose of the Johnson & Johnson vaccine. People who received two different vaccines are considered fully vaccinated if both vaccine products are authorized or approved by the FDA or WHO.
 - For existing staff members who have received the first dose of a vaccine that requires two doses, they must get the second dose by February 4, 2022.

- For staff members who have not received the second dose of a two-dose series at the time of initial reporting, the provider must later receive proof of and record the **date that the second dose was received**.
5. For any staff who did not submit proof of COVID-19 vaccination because they were granted a reasonable accommodation, the record must indicate that such accommodation was provided.
- The program must separately maintain records stating the basis for a reasonable accommodation determination and the supporting documentation provided by the staff in accordance with applicable laws, including the Americans with Disabilities Act. Any accommodation cannot include the staff person being present in-person with children.

At this time programs are not required to track staff who have received booster shots.

Here is an example of the vaccine information to collect for your staff:

Staff Name	Start Date	Type of Vaccine Proof	Vaccine Product	Date of Vaccine Dose 1	Date of Vaccine Dose 2 (not required for Johnson & Johnson)	Date of Proof of Vaccine	Currently Fully Vaccinated
John Doe	1/10/2020	NYS Excelsior	Pfizer	3/3/2021	4/5/2021	4/15/2021	Yes
Jane Doe	2/27/2018	NYC COVID Safe app	Moderna	10/26/2021	Required by 12/6/2021	11/1/2021 (dose 1)	No
Tim Smith	4/5/2019	CDC card	Johnson & Johnson	11/10/2021	N/A	11/12/2021	Yes

Where can I find information about the COVID-19 vaccine?

For more information on COVID-19 vaccines, visit nyc.gov/covidvaccine. The COVID-19 vaccines are safe, effective and free. Information about locations where New Yorkers can receive a vaccine for COVID-19 can be found at nyc.gov/vaccinefinder or by calling 877-VAX-4-NYC (877-829-4632). Staff can also request in-home vaccination by visiting nyc.gov/homevaccine or calling 877-VAX-4-NYC (877-829-4632).

What is the mask requirement?

All staff and children who are over age two and can medically tolerate a face mask must wear one while at a child care program and during off-site trips and excursions. The face mask should cover the mouth and nose at all times, except when eating or drinking, or when sleeping or napping. Children under age two should **never** wear a mask. People may use alternative face coverings (such as face masks that are transparent at or around the mouth) based on the developmental needs of a child. Programs authorized by NYS OCFS are currently complying with this NYS mandate.

How will the vaccination and mask requirements be enforced?

The NYC Health Department will enforce through routine inspections. Failure to comply may result in a summons subject to a \$1,000 fine.

WHEREAS, on March 25, 2020, the New York City Commissioner of Health and Mental Hygiene declared the existence of a public health emergency within the City to address the continuing threat posed by COVID-19 to the health and welfare of City residents, and such declaration and public health emergency continue to be in effect; and

WHEREAS, on November 26, 2021, New York State Governor Kathy Hochul, pursuant to Section 28 of Article 2-B of the Executive Law, found that New York is experiencing COVID-19 transmission at rates the State has not seen since April 2020 and that the rate of new COVID-19 hospital admissions has been increasing over the past month to over 300 new admissions a day due to the Delta variant, and therefore declared a State disaster emergency for the entire State of New York through January 15, 2022; and

WHEREAS, on November 26, 2021, the World Health Organization (“WHO”) declared the new COVID B.1.1.529 variant, named Omicron, a variant of concern because it has a large number of mutations and preliminary evidence suggests an increased risk of reinfection and spread across the world, including to the United States; and

WHEREAS, pursuant to Section 558 of the New York City Charter (the “Charter”), the Board of Health may embrace in the Health Code all matters and subjects to which the power and authority of the Department of Health and Mental Hygiene (“the Department”) extends; and

WHEREAS, the WHO and the U.S. Centers for Disease Control and Prevention (“CDC”) have advised all individuals to take measures to reduce their risk of COVID-19, especially the Delta and Omicron variants, including vaccination, which is an effective tool to prevent the spread of COVID-19 and benefits both vaccine recipients and those they come into contact with, including persons who for reasons of age, health, or other conditions cannot themselves be vaccinated; and

WHEREAS, the CDC has recommended that school teachers and staff be “vaccinated as soon as possible” because vaccination is “the most critical strategy to help schools safely resume full operations [and] is the leading public health prevention strategy to end the COVID-19 pandemic;” and

WHEREAS, on November 30, 2021, the federal Administration for Children and Families issued an interim final rule requiring that all Head Start staff and volunteers working in classrooms or directly with children be vaccinated for COVID-19 by January 31, 2022; and

WHEREAS, the City is committed to safe, in-person learning in all preschool to grade 12 schools, following public health science; and

WHEREAS, more than 240,000 students across the City attend nonpublic schools, including students in the communities that have been disproportionately affected by the COVID-19 pandemic and students who are too young to be eligible to be vaccinated; and

WHEREAS, a system of vaccination for individuals working in nonpublic schools will potentially save lives, protect public health, and promote public safety; and

WHEREAS, pursuant to Section 3.01(d) of the Health Code, I am authorized to issue orders and take actions that I deem necessary for the health and safety of the City and its residents when urgent public health action is necessary to protect the public health against an existing threat and a public health emergency has been declared pursuant to such section; and

WHEREAS, the COVID-19 pandemic has severely impacted New York City and its economy, and is addressed effectively only by joint action of the City, State, and Federal governments; and

WHEREAS, the state of emergency to address the threat and impacts of COVID-19 in the City of New York first declared in Emergency Executive Order No. 98, issued on March 12, 2020, and extended most recently by Emergency Executive Order No. 46, issued on February 28, 2022, remains in effect; and

WHEREAS, this Order is given because of the propensity of the virus to spread person-to-person, and also because the actions taken to prevent such spread have led to property loss and damage; and

WHEREAS, the seven-day average of COVID-19 cases and number of COVID-19 hospitalizations have declined significantly since the peak of the surge driven by the Omicron variant and have steadily remained lower; and

WHEREAS, Governor Kathy Hochul announced an end of the State's mask requirement for schools and certain other indoor spaces based on analysis of key COVID-19 data trends; and

WHEREAS, on March 1, 2022, New York State Commissioner of Health Mary T. Bassett issued updated guidance removing the requirement for masking in schools, and on March 2, 2022, issued a determination eliminating the requirement to wear masks in indoor spaces other than in healthcare settings, certain adult care facilities, correctional facilities and detention centers, homeless and other shelters, and public transportation conveyances and transportation hubs; and

WHEREAS, the Key to NYC program, set forth in Emergency Executive Order No. 317 and extended most recently by Emergency Executive Order No. 49, has required patrons, employees, interns, volunteers and contractors of covered entities, including restaurants, indoor gyms, and event spaces, to provide proof of vaccination; and

WHEREAS, as of March 1, 2022, 96 percent of New York City adult residents and 86 percent of residents of all ages have received at least one dose of a COVID-19 vaccine; and

WHEREAS, in light of the significantly reduced incidence of COVID-19 in the City of New York, I am ending the Key to NYC program; and

WHEREAS, employers that have been subject to the Key to NYC requirements have been exempt from similar worker vaccination and record-keeping requirements set forth in the Order of the Commissioner of Health and Mental Hygiene, dated December 13, 2021 (“the COH Order”); and

WHEREAS, to continue treating in a similar manner workers who have been subject to the Key to NYC vaccination requirements and workers subject to the COH Order, and to avoid imposing new record-keeping requirements on employers that have until now been subject to the Key to NYC program, this Order requires covered entities to continue to require proof of vaccination from covered workers and to continue to keep the same records as they have been required to keep under the Key to NYC program;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

b. The expiration of the Key to NYC program does not prevent any entity from requiring proof of vaccination from a patron, nor does it prevent any entity from establishing another COVID-19 prevention measure, such as requiring a patron to wear a mask. The City Commission on Human Rights shall continue to provide guidance to assist covered entities in applying such requirements in an equitable manner consistent with applicable provisions of the New York City Human Rights Law.
